

# A little About Me

This is my eleventh year teaching Physical Education. The previous position was at the high school level where I also coached Football, Basketball, and Track. I have been married to my wife Crystal for twenty-one years and have two Kids. My son is a sophomore and my daughter is a senior in High School. I look forward to seeing students realize what a positive lifelong experience Physical Education can be. I grew up in Nebraska so you probably will catch me wearing some red. Which works out because I also root for our Wildcats.
